

# ST. CLAIR MECHANICAL INC.

2963 BRIGDEN ROAD, BRIGDEN, ONTARIO N0N 1B0

## CIVIL DIVISION

---

## EXCAVATION CAPABILITIES

St. Clair Mechanical excels in excavation services, boasting a comprehensive fleet of civil equipment, which includes hydrovac trucks, excavators, and live bottoms. With this extensive inventory, we have the capability to self-perform all excavation work and remediation using our in-house resources. By harnessing our equipment and expertise, we consistently provide cost-effective solutions, leading to significant savings for our valued clients.

---

## FORMING CAPABILITIES

In a recent Enbridge Project, St. Clair Mechanical undertook the forming and pouring of 150 piping and equipment supports, alongside pouring 10,000 square feet of mud mats. Leveraging our extensive inventory of Symon forms, we further enhanced our forming capabilities. All of this work was executed by our skilled in-house workforce, eliminating the need to bring in additional crews to meet our stringent safety standards.

---

## PLATING CAPABILITIES

St. Clair Mechanical offers steel access matting, crucial for temporary access over unstable ground. With an inventory of (6000) units, we ensure project needs are met. Widely used in construction, oil and gas, and utilities, these mats provide stability for equipment and personnel, enhancing safety and efficiency on challenging sites. Trust us for reliable steel access matting solutions.

---

## TYPICAL WORK PERFORMED

St. Clair Mechanical takes pride in performing all civil scope work with our in-house workforce. Our extensive equipment inventory and skilled manpower are tailored to handle all civil requirements on our projects, fostering a safer and more efficient workplace. Ultimately, this approach translates into cost savings for our valued clients.

## SAFETY

At St. Clair Mechanical, safety is paramount. We adhere strictly to industry regulations, conduct regular training, and maintain a culture of safety awareness to ensure the well-being of our team and communities. At St. Clair Mechanical, we start with safety and end with success.

## ENVIRONMENTAL

St. Clair Mechanical prioritizes environmental responsibility. We integrate sustainable practices into our projects, comply with environmental regulations, and strive to minimize our ecological footprint to protect the environment for future generations.
